Subject: New AI Apprenticeship Facility Introduced in NATS Portal – Action Required

Dear Sir/Madam,

We are pleased to inform you that a new **AI Apprenticeship** facility has been introduced in the NATS 2.0 portal to support the integration of Artificial Intelligence components in apprenticeship training programs.

Key Updates:

- AI Apprenticeship Tagging during Contract Creation**
While creating contracts for apprentices, you will now find a **checkbox** to mark an apprentice as an "AI Apprentice." Upon selecting this option, you will be required to provide the following:
 - Apprenticeship Training Sector
 - Soft Skills components to be imparted during the training

A **screenshot** illustrating this functionality is attached for your reference. Henceforth, all contracts marked with this checkbox will be treated as **AI Apprenticeships**, and the same will be reflected in the NATS portal records.

Additionally, a **provision to post AI Apprenticeship advertisements** is now available in the portal. The process for posting AI advertisements follows the same flow as standard apprenticeship advertisements, and we encourage you to take full advantage of this facility.

We encourage you to utilize this new functionality to engage apprentices in AI-related skills and help align with the national vision of advancing AI talent.

Please note that further enhancements under this initiative are planned and will be communicated in due course.

For any clarification or support, feel free to contact us.

Thanking you,

Yours faithfully,

(Dr.S.M. Ejaz Ahmad)
Director
